

Latif Ardiansyah

Junior IT Software Developer

+62 81243827522 | latifardiansyah982@gmail.com

Professional Summary

Highly motivated and detail-oriented Information Systems Graduate with a strong foundation in software development. Possesses solid hands-on experience in JavaScript, Python, PHP and the Software Development Life Cycle (SDLC). Proven track record of building 2 web application projects through academic coursework and internship programs. Eager to contribute technical skills to a dynamic development team to build clean, efficient, and scalable code.

Professional Experience

Web Development Teaching Assistant

Universitas Amikom Yogyakarta | September 2025 – January 2026

Job description:

- Facilitated laboratory sessions for Advanced Web Programming, Introduction to Information Technology, and Advanced Database Management Systems courses.
- Provided technical guidance and hands-on support to students during practical sessions, ensuring clarity on complex programming concepts.
- Assisted lecturers in the assessment and evaluation process for student assignments, exams, and projects.
- Delivered lecture materials and managed classroom activities effectively in the absence of the primary lecturer.

Frontend Developer Intern

POLDA DIY (Regional Police of Yogyakarta) | April 2025 – July 2025

Job description:

- Designed and developed the user interface for a prank call reporting system, ensuring an intuitive and responsive user experience.
- Implemented the core functionalities of the reporting system using Laravel 11 and Tailwind CSS, resulting in a robust and efficient backend-to-frontend integration.
- Conducted comprehensive feature testing and debugging to ensure system stability, security, and accuracy in reporting.

Education

Bachelor Degree | 2022 - 2026 | Universitas Amikom Yogyakarta

GPA 3.79 - Programming concentrate

Technical & Core Skills

- Web Development & Frameworks: JavaScript, React.js, Next.js, Laravel, CodeIgniter, Tailwind CSS, Bootstrap, HTML5, CSS3.
- UI/UX & Web Design: Figma (Wireframing, Prototyping, Responsive Design).
- Database Management: MySQL, SQL Server
- Version Control & Tools: Git, GitHub, XAMPP, Visual Studio Code.
- AI-Assisted Development: Claude, Gemini, ChatGPT, GitHub Copilot (Prompt Engineering, Code Generation, AI-Driven Debugging).
- Office Productivity: Microsoft Office (Word, Excel, PowerPoint).
- Professional Competencies: Technical Report Writing & Documentation, Project & Team Management, Problem Solving, Analytical Thinking.

Certifications & Training

Laravel & JavaScript Expert | CodePolitan (Online Course) | February 2025 – April 2025

- Completed intensive training focused on advanced Laravel framework development and JavaScript optimization.
- Developed practical projects implementing secure authentication, database integration, and dynamic front-end components.

Web Programming | Amikom Computer Club / AMCC (Hybrid Course) | August 2024

- Learned core web development fundamentals, including front-end structure and back-end logic.
- Participated in hands-on coding sessions and collaborative building of web application prototypes.

Organization

AMCC Club Amikom Yogyakarta | June - August 2024

- Active member of the Web programming division, consistently participating in weekly technical workshops and coding bootcamps.
- Collaborated with peers to build open-source projects and web application prototypes, enhancing hands-on skills in JavaScript, ReactJs, etc.
- Engaged in internal tech-sharing sessions, contributing to discussions on modern software development practices and emerging technologies.
